

## OTCMarkets.com Search Criteria and Logic

On the following pages, I have captured screenshots to help show the logical process in using OTCMarkets Stock Screener search functionality.

1. Type in the primary URL: [www.otcmarkets.com](http://www.otcmarkets.com). This will take you to the home page.
2. On the homepage, select the 1st navigation link called: “Market Activity” This will provide a popup menu screen where you will be able to select — “Stock Screener.” (Reference Page 2 — Please note that at the bottom of the 1st column.)
3. By selecting Stock Screener, it will open a new tabbed browser window and it will be the main page for Stock Screener, where you make your search criteria selections. (Reference Page 3 — This is where all the selection criteria options are available on the left side of the page.)
4. The first search selection is called “Markets” Here you will click on the dropped downbox and it will provide you 4 primary options — OTCQX, OTCQB, Pink, and Grey. Net to Pink, you will see an up arrow. Click on it, and you will see 3 subsets of Pink Sheet Companies — Pink Current, Pink Limited, and Pink No Information. (Reference page 4 — This is where you select Pink Limited and Pink No Information.)
5. Next Selection Box is “Security Type” — Here you will select only “Common Stock” (Reference Page 5)
6. Next selection after Security Type is “Country” Here you will see the top country listed is “USA” with an up arrow next to it. Click on the up arrow, and it will expand the sub-selection to all states and territories — (Reference Page 6) Scroll down to New York, and select it. (Reference Page 7).
7. Skip Industry selection box and go down to the Section called GROWTH. In the 1st Selection options under the GROWTH Category, you will see Price. Leave Min Price blank. In the Max Price, enter 0.05 (we are filtering for maximum Price of \$0.05 per share — Reference Page 8. This will be your last selection.

As you make each selection, the listings to the right of the selection criteria will change as the number of companies per the selection criteria will be less and less until you get our final list after entering in max price of \$0.05.

Now you can order the list by selection on the price column and you see it change from highest to lowest price per share or vice versa. I would suggest going from highest to lowest..

Now you have your filtered list based on the latest criteria per the parameters set by Dempsey. If you select let’s say the first company, you will see the selected company with a bunch of links of which one is “Company Profile” (Reference Page 9 ).

When you click on Company Profile Link, it will provide you the last information it has on file. (Reference Page 10.) This is where we start in trying to locate the individual(s) we want to identify and the person to talk to. If this is not the right person, then hopefully it will be someone that can point us in the right direction.

DESCRIPTION

The business of the Company, operated through its subsidiaries, Standard Canna, Inc., Standard Cultivation Systems Inc. and Standard Property Group Inc., concentrates on the purchase and/or lease, development and operation of growing space and related facilities and leasing such facilities to cannabis cultivators and dispensary owners for their operations in jurisdictions where such operations are consistent with state and local law. We have developed a fully scalable design model centered around maximizing yields and meeting the needs of cannabis cultivators which will be our tenants. We believe that the cornerstone of our model is maximizing yields by properly implementing cutting edge technology that will maintain an ideal controlled environment for our tenant cultivators. We are in the process of identifying properties for purchase and/or lease in Colorado, Washington and California.
